A NEW TARIFF PROVISION. The press is calling attention to this addition to the Payne tariff bill: "Toys made in imitation or in minature, or bearing the same name as articles that are provided for in the dutiable list by individual or class designation, shall pay the same rate of duty as such articles."

The Meriden Journal makes the fol-

OPERATING IN ANTICIPATION Taking advantage of tariff revision is something the expert speculator has in mind and carafully provides for. The revisers have made coffee free and provided for a tax upon tea amounting to eight cents a pound, and in anticipation of this it is affirmed that a speculative combination has purchased a large amount of tea and are among the most earnest advocates of a tariff upon it, for what they hope

CONCERNING WOMEN.

Miss Julia Marlowe is one of the most clever bookbinders. When at her country place, Highmount, in the Cats-cills, she passes much of her time over ders' tools and machinery.

There is a movement among the Methodists, headed by Mrs. Phebe Stone Beeman, a niece of Lucy Stone, to have women granted the right to become ordained Methodist ministers. Since 1872 women have been permitted to preach; but, although after three years of preaching men are ordained, women are not.

Mrs. Sarah Albertson Glover, who was painting at Taormina, so miles from Messina, at the time of the earth-quake, is a well known figure in New York art circle. She is also a diever writer on art and crafts. Some years ago she established a bungalow colony on the south shore of Long Island, designing the bungalows and doing the interior decorations herself.

Have ready beaten the whites of two eggs and pour the syrup gradually upon these, whipping them steadily. To this mixture add a cup of seeded and chopped raisins, a cupful of chopped pecan nuts and five large figs cut into thin strips. Cover the layers and top of the cake with this mixture.

Lady Baltimore Cake. Cream a cupful of butter with two cups of powdered sugar, add a cup of sweet milk, three and a half cups of flour sifted well with two level teaspoonfuls of baking powder, add a teaspoonful of rose water and fold in lightly the whites—well stiffened—of two eggs. Bake in layer tins and put together with filing.

French Uncooked Candy.

French Uncooked Candy,

Beat the white of an egg until it froths a little, add the juice of a medium-sized orange and work in gradually enough confectioner's sugar to make a paste that can be worked with the hands like putty. Pinch off a small piece, place this in the left palm and with the fingers of the right hand roll it lightly into a ball, press half a pecan nut or English wainut on the top and place on a plate to dry. Lemon juice may be used instead of orange or the two combined. Vanilla, rose water and almond are good flavorings for this candy. Dates and raisins may take the place of the nuts. A pleasing effect is produced by spilling white or pink balls lightly in grated cocoanut. The balls may also be rolled in chocolate coating.

Molasses Candy. Molasses Candy.

One quart of good molasses, half a cup of vinegar, a cup of granulated sugar, a generous tablespoonful of butter, a tablespoonful of baking soda. Dissolve the sugar in the vinegar, add the molasses and put all into a porcelain-lined saucepan and boll, stirring often, until a little dropped into cold water hardens. When this point is reached stir in the butter and baking soda, beat for a few seconds and take from the firs. Pour into buttered dishes and as soon as the mixture is cool enough to handle flour the hands and pull into long, light strips.

To Clean Fur Collars.

Fur coat collars, and in fact, any kind of fur neck dressing are apt to become soiled and altogether duli looking just at the back on account of rubbing on the halr.

It is a good plan to shake talcum powder into the collar when putting it away, shaking it out again when needed for wear the next time.

Done frequently, this will retain or rather restore the gloss to the fur, as the case may be, while for light furs, such as chinchilla and ermine, it will be cleansing.

is Elbert Hubbard's definition of the word dignity.

Unquestionably Elbert is correct, and every thinking person will agree with him.

Think of the people with dignity and count those having it naturally. He who has it naturally, combined with ability, is a great success in life. Those with assumed dignity are—well, they are understood and discounted by the public.

We've no dignity, natural or assumed, and if its use was attempted by us the public would discount it. Let the public estimate us correctly; give us credit for a thorough knowledge of the photograph business; for doing work at reasonable prices. Years of experience in this business exclusively entities us to it.
